

General characteristics of tree suitability for the intended purposes and key identifying features.	
Botanical Name	<i>Insert genus and species</i>
Common Name	<i>Insert common name(s)</i>
Key identification features	<i>Insert notes on recognition and identification features</i>
Growth rate	<i>Insert notes on growth rate – cm per year</i>
Dimensions	<i>Insert notes on dimensions: height, spread and diameter-at-breast height (DBH)</i>
Form / Habit	<i>Insert notes on tree form / growth habit / canopy shape</i>
Suitability for intended purposes	<p><i>Insert notes on the intended purpose as applicable: habitat use, food supply, erosion control, visual amenity, screening, privacy, provision of shade, soil improvement, living fence, windbreak, ally cropping, firewood, timber, nitrogen-fixing, water, biomass, product, repellent, medicinal use etc.</i></p> <p><i>Insert notes on the suitability of the tree for that purpose(s).</i></p>
Detailed attributes of the location, taxonomic characteristics, edaphic and environmental preferences and limitations of the tree	
Family	<i>Insert name of taxonomic family</i>
Leaf morphology	<i>Insert notes on leaf characteristics: shape, colour, size etc.</i>

Industry Partners:

<p>Branch, trunk and bark features</p>	<p><i>Insert notes on buds, petiole, branchlets, branches, trunk and bark features</i></p>
<p>Flower morphology</p>	<p><i>Insert notes on flower characteristics</i></p>
<p>Fruit morphology</p>	<p><i>Insert notes on fruit type and characteristics</i></p>
<p>Sensory features of the tree</p>	<p><i>Insert notes on any sensory features of the tree</i></p>
<p>Identification method</p>	<p><i>Insert notes on methods of identification used: taxonomic key, field guides, key features, comparison of tree samples recognition, specific features etc.</i></p>
<p>Origin and current distribution</p>	<p><i>Insert notes on origin and distribution</i></p>
<p>Climatic zone</p>	<p><i>Insert notes on climatic zone</i></p>
<p>Environmental preferences</p>	<p><i>Insert notes on the environmental preferences of the tree: growth requirements, sun, shade, drought & frost</i></p>
<p>Cultural and historical significance</p>	<p><i>Insert notes on the cultural and historical significance of the tree</i></p>
<p>Social benefits of tree</p>	<p><i>Insert notes on social benefits of the tree</i></p>
<p>Environmental benefits of tree</p>	<p><i>Insert notes on environmental benefits of the tree</i></p>

Industry Partners:

AQF 5A Tree Profile and Benefits Form

Soil information	<i>Insert notes on soil type, composition, texture, drainage/compaction/oxygenation characteristics</i>	
Pests / diseases	<i>Insert notes on known pests / diseases</i>	
References	<i>Insert research references and links</i>
