

Prerequisite competency completion		
Not applicable. There are no prerequisite requirements.		
Required reports completion		
Has the candidate successfully completed the required reports ?	Yes/No (Y/N)	Signed (Initialled)
Operational tree management plan		
Tree inventory		
Mandatory Equipment (as a minimum)		
Has each of the mandatory equipment items been used to gather evidence for assessment?	Yes/No (Y/N)	Signed (Initialled)
computer		
word processing software		
statistical software		
internet connection		
Knowledge Evidence		
Has the candidate successfully completed the Knowledge Evidence requirements by demonstrating knowledge of each of the line items below?	Yes/No (Y/N)	Signed (Initialled)
operational areas for formulating a tree management plan		
objective, performance targets and intended outcomes		
tree management planning		
tree policy documentation		
history and cultural heritage		
land ownership		
land use		
state and local government acts		
zoning and planning controls,		
development & planning laws		
disability discrimination		
companion animals		
value		
maintenance needs		
frequency of pruning cycles		
contractual, leasing and licensing obligations		

Industry Partners:

infrastructure protection		
data collection		
tree inventory		
tree species, type, diversity and distribution		
soils analysis		
planting locations		
selection criteria		
replacement trees		
stakeholders		
community groups		
permissible usage		
tree protection plan		
operational procedures		
tree removal		
tree replacement		
street tree planting		
tree inspections and assessments		
tree pruning operations		
power line clearance		
habitat protection		
pesticide use		
draft and final documents		
print media		
public submissions		
public hearing		
operational tree management plan		
Performance evidence		
Has the candidate successfully demonstrated the Performance Evidence requirements of the unit of competency AHCARB606 Develop an operational tree management plan, and as per listed line items below?	Yes/No (Y/N)	Signed (Initialled)
determining the specific operational area for management plan		
determining the objectives, performance targets and intended outcomes of management plan		
sourcing policy from tree policy documentation		
determining the geographical area and other limits of plan		
determining the history and cultural heritage of the area covered by the plan		

Industry Partners:

determining land use of the area		
determining the relevant state and local government acts, zoning and planning controls, development and planning laws noting requirements for disability discrimination and companion animals		
determining ownership of the area		
determining key stakeholders and community groups		
determining core objectives for trees and area		
determining current and permissible usage of area		
determining trees for management		
determining assessments required such as tree health, hazards, site conditions, soils		
defining and collect data required for operational management		
assessing the tree species, type, diversity and distribution at required detail		
determining position of planting locations		
determining selection criteria for replacement trees		
determining tree removal and tree replacement processes		
establishing tree inventory		
determining financial resources available		
determining management requirements of trees		
estimating cost of works required for operational program		
determining priority of works incorporating risk into determination		
determining frequency of pruning cycles required		
determining personnel, supplies, equipment and other resources required		

Industry Partners:

Assessment conditions		
<p>It is an industry requirement for competency in this unit for assessment of the operational plans as listed in the Range of Conditions section of this unit of competency. Tree management plans must include the operational areas of:</p> <ul style="list-style-type: none"> • tree inspections and assessments • tree selection and planting • tree management • tree maintenance • tree protection • tree removal • risk identification and mitigation • infrastructure protection • habitat protection • power line clearance • community and private trees • pest and disease control • significant trees • trees of a selected geographic area 		
<p>Have the assessments incorporated the assessment conditions and met the industry requirements for competency in this unit, by inclusion in the tree management plan, as per listed line items below?</p>	<p>Yes/No (Y/N)</p>	<p>Signed (Initialled)</p>
• tree inspections and assessments		
• tree selection and planting		
• tree management		
• tree maintenance		
• tree protection		
• tree removal		
• risk identification and mitigation		
• infrastructure protection		
• habitat protection		
• power line clearance		
• community and private trees		
• pest and disease control		
• significant trees		
• trees of a selected geographic area		

Industry Partners:

Assessment may be conducted in a simulated or real work environment; however, determination of competency requires the application of work practices under work conditions.	Yes/No (Y/N)	Signed (Initialled)	
Have assessments been demonstrated consistently over time?			
Have assessments been demonstrated in a suitable range of contexts?			
Have assessments been demonstrated with a productivity-based outcome?			
Have assessments been demonstrated with multiple assessment events and reports?			
Assessor Declaration			
Assessors must satisfy current standards for RTOs in the assessment of arboriculture units of competency.	Yes/No (Y/N)	Signed (Initialled)	
Has assessment been conducted only by persons who have:			
<ul style="list-style-type: none"> • arboriculture vocational competencies at least to the level being assessed? 			
<ul style="list-style-type: none"> • current arboriculture industry skills directly relevant to the unit of competency being assessed? 			
Assessor name	Assessor qualification	Year	Full Signature
Competency Determination			
This section determines the skills and knowledge required to develop an operational tree management plan.		Competent /Not yet competent	
The candidate is competent in developing an operational tree management plan.			
Competency Assessment Completion			
Assessor name	Date	Full Signature
