

<b>Specific characteristics of tree suitability for local use and key identifying features.</b>	
<b>Botanical Name</b>	<i>Insert genus and species</i>
<b>Common Name</b>	<i>Insert common name(s)</i>
<b>Family</b>	<i>Insert name of taxonomic family name</i>
<b>Growth rate</b>	<i>Insert notes on growth rate – cm per year</i>
<b>Dimensions</b>	<i>Insert notes on dimensions: height, spread and diameter-at-breast height (DBH)</i>
<b>Form / Habit</b>	<i>Insert notes on tree form / growth habit / canopy shape</i>
<b>Suitability for intended purposes</b>	<i>Insert notes on the intended purpose as applicable: habitat use, food supply, erosion control, visual amenity, screening, privacy, provision of shade, soil improvement, living fence, windbreak, ally cropping, firewood, timber, nitrogen-fixing, water, biomass, product, repellent, medicinal use etc. Insert notes on the suitability of the tree for that purpose(s).</i>
<b>Reasons for high suitability for local use/ preference as a desired species</b>	<i>Insert notes on the reasons for high suitability for local use and preference as a desired species for local use</i>
<b>Select appropriate checkbox(es):</b>	
<input type="checkbox"/> local species	<input type="checkbox"/> Indigenous species <input type="checkbox"/> exotic species
<b>Detailed attributes of the location, taxonomic characteristics, edaphic and environmental preferences and limitations of the tree</b>	
<b>Leaf morphology</b>	<i>Insert notes on leaf characteristics: shape, colour, size etc.</i>

Industry Partners:

<p><b>Branch, trunk and bark features</b></p>	<p><i>Insert notes on buds, petiole, branchlets, branches, trunk and bark features</i></p>
<p><b>Flower morphology</b></p>	<p><i>Insert notes on flower characteristics</i></p>
<p><b>Fruit morphology</b></p>	<p><i>Insert notes on fruit type and characteristics</i></p>
<p><b>Sensory features of the tree</b></p>	<p><i>Insert notes on any sensory features of the tree</i></p>
<p><b>Key identification features</b></p>	<p><i>Insert notes on key recognition and identification features</i></p>
<p><b>Identification method</b></p>	<p><i>Insert notes on methods of identification used: taxonomic key, field guides, key features, comparison of tree samples recognition, specific features etc.</i></p>
<p><b>Origin and current distribution</b></p>	<p><i>Insert notes on origin and distribution</i></p>
<p><b>Climatic zone</b></p>	<p><i>Insert notes on climatic zone</i></p>
<p><b>Environmental preferences</b></p>	<p><i>Insert notes on the environmental preferences of the tree: growth requirements, sun, shade, drought &amp; frost</i></p>
<p><b>Cultural and historical significance</b></p>	<p><i>Insert notes on the cultural and historical significance of the tree</i></p>

Industry Partners:

<p><b>Social benefits of tree</b></p>	<p><i>Insert notes on social benefits of the tree</i></p>		
<p><b>Environmental benefits of tree</b></p>	<p><i>Insert notes on environmental benefits of the tree</i></p>		
<p><b>Edaphic data and preferences</b></p>	<p><i>Insert notes on soil type, composition, texture, drainage/compaction/oxygenation characteristics</i></p>		
<p><b>Pests / diseases</b></p>	<p><i>Insert notes on known pests / diseases</i></p>		
<p><b>Limitations of tree</b></p>	<p><i>Insert notes on known limitations of the tree</i></p>		
<p><b>References</b></p>	<p><i>Insert research references and links</i></p>		
<p><i>Insert image as required</i></p>		<p><i>Insert image as required</i></p>	
<p>Image credit: Location: Date:</p>	<p><i>Name of photographer</i> <i>Location of disease</i> <i>Date image was taken</i></p>	<p>Image credit: Location: Date:</p>	<p><i>Name of photographer</i> <i>Location of disease</i> <i>Date image was taken</i></p>
